

Dear Patient,

Main Street Anesthesia is proud to be a part of your surgical care. We participate with most major insurance carriers. However, there is a possibility we may not participate with your insurance plan. If we are considered out-of-network, we will make every effort to request your services to be processed as in-network. Please contact your insurance company to verify your network status and benefits.

If your procedure is not covered by insurance, you may be asked to pay your anesthesia services prior to the procedure. We will make every effort to offer payment options.

Please see contact information below for all billing and payment inquiries. Do not hesitate to contact us with any concerns.

Sincerely,

Main Street Anesthesia Team
